Current funds revenues for institutions of higher education totaled $24.0 billion in fiscal year 1971. This was an 11.0-percent increase over the preceding fiscal year's total of $21.6 billion.

Publicly controlled institutions continued to report an increasing share of total revenues. In 1970-71, revenues for publicly controlled institutions totaled $15.6 billion, or 65.1 percent of the total. This was a 12.8-percent increase over the nearly $13.9 billion received in 1969-70 when the public sector accounted for 64.1 percent of all revenues.

Privately controlled institutions reported nearly $8.4 billion in current funds revenues in 1970-71. This was a 7.8-percent increase over the nearly $7.8 billion received the year before.

Governmental appropriations were the greatest source of revenues. The total was nearly $7.8 billion in 1970-71, of which State governments provided close to $6.4 billion, or 81.9 percent of the total governmental appropriations.

Student tuition and fees were the second greatest source of revenues to institutions of higher education. These revenues rose 13.6 percent to $5.0 billion.

Current funds expenditures by all institutions of higher education rose at a faster pace than did total enrollments. Expenditures increased 11.1 percent to $23.5 billion in 1970-71, while enrollments increased only 7.2 percent.

The largest expenditure of current funds was for instruction and departmental research. Of the $23.5 billion of current funds expenditures in 1970-71, nearly $7.9 billion, or 33.4 percent, were expended on instruction and departmental research.

Current funds expenditures exceeded current funds revenues at private universities by more than $37 million.

Average expenditures per student (EPS) for all institutions of higher education went up $96, from the 1969-70 average of $2,623 to $2,719 in 1970-71. However, when adjusted for inflation, the expenditures per student in constant 1970-71 dollars decreased from $2,759 in 1969-70 to $2,719 in 1970-71.

EPS averages in 1970-71 ranged from a high of $5,757 for private universities to a low of $998 for public 2-year colleges.

FOREWORD

This publication provides State and national totals of various financial data acquired from the institutions of higher education in the questionnaire on "Financial Statistics of Institutions of Higher Education" (OE Form 2300-4) as a component of the sixth annual Higher Education General Information Survey (HEGIS). It was circulated in 1971 to acquire data on 1970-71. The questionnaire gathered data on current funds revenues, current funds expenditures, physical plant assets, indebtedness on physical plant, and the value and earnings of endowment, as well as data on the basic student charges for 1971-72. This publication is limited to data on current funds revenues and current funds expenditures. Separate publications will deal with the property-related data and on the information on basic student charges.

A small number of institutions did not respond to the survey. (See Appendix E, List of Nonrespondents.) For these institutions, data were imputed so that the totals and subtotals represent all institutions including nonrespondents. (See Appendix A, Methodology.)

Because some institutions have placed restrictions on the dissemination of their data, the tabulations contain some obvious deletions. Any data which, either alone or in combination with other data or knowledge, would permit any reader to discern such restricted data have been eliminated from the tables.

So many people contributed their efforts and knowledge to the production of this publication that it is impossible to credit them all by name. However, the authors particularly wish to recognize the contributions of Estelle Aubrey and Ruth Muffler, who prepared and organized the statistical materials.

We extend our sincere appreciation to the more than 2,600 business officers and other officials of those institutions and State agencies who assisted in the development of the survey and completed the questionnaire.

SUMMARY

The current funds revenues and expenditures of institutions of higher education continued an increasing trend in 1970-71. Revenues increased 11.0 percent, from the 1969-70 total of $21.6 billion to $24.0 billion for 1970-71; expenditures increased 11.1 percent for this period, from $21.2 billion to $23.5 billion. Previously, revenues and expenditures had increased 14.0 percent and 13.9 percent, respectively, from 1968-69 to 1969-70 and 12.2 percent each from 1967-68 to 1968-69.

Although the rates of increase for revenues and expenditures exceeded those for enrollments (up 7.2 percent), the countereffects reflected in adjustments for inflation 1/ resulted in an actual decrease in the funds per student from 1969-70 to 1970-71.

The same situation may be observed in the 3-year period from 1967-68 to 1970-71. Current funds revenues and expenditures rose 42.1 percent and 41.9 percent, respectively--far above the 24.2-percent growth in enrollments and more than twice the 16.7-percent inflation. However, if the dollar amounts are adjusted for inflation and then divided by the enrollments, the revenues per student and expenditures per student are smaller in 1970-71 then they were in 1967-68.

Current Funds Revenues

Current funds revenues for all institutions of higher education increased 11.0 percent, from $21.6 billion in 1969-70 to $24.0 billion in 1970-71. In the latter year, the publicly controlled institutions reported revenues of $15.6 billion, or 65.1 percent of the total. This was a 12.8-percent increase over the nearly $13.9 billion received in 1969-70. Current funds revenues for private institutions increased 7.8 percent in 1970-71--from nearly $7.8 billion in 1969-70 to nearly $8.4 billion. Although revenues increased for private institutions in 1970-71, their percentage of total revenues dropped slightly, from 35.9 percent in 1969-70 to 34.8 percent in 1970-71. This was at least partially due to the fact that during this period enrollments in private institutions rose only 2.2 percent, while enrollments in public institutions increased 9.0 percent.

Revenues for private universities and other 4-year institutions increased 7.2 percent to $4.1 billion and 8.9 percent to nearly $4.0 billion, respectively. Revenues for private 2-year colleges increased 3.2 percent for 1970-71 to nearly $240 million; at the same time enrollments for these colleges decreased 6.0 percent.

1/ As measured by Consumer Price Index. The monthly indexes were averaged on a July-to-June basis to correspond with the school year.

Public universities continued to report the largest share of current funds revenues of any level of institution in 1970-71. Their revenues of $9.1 billion represented a 10.1-percent increase over the 1969-70 figure of $8.3 billion. The revenues of other public 4-year institutions went up 14.4 percent to $4.2 billion. However, 2-year public colleges reported the greatest percentage increase in revenues for 1970-71. Revenues for these schools rose 21.8 percent--from nearly $1.9 billion to nearly $2.3 billion--while enrollments in public 2-year colleges increased 13.7 percent.

Sources of Revenues

For all institutions, the greatest sources of revenues were governmental appropriations 2/(32.4 percent), totaling nearly $7.8 billion in 1970-71. Of these appropriations, State governments were reported to have provided nearly $6.4 billion or 82.0 percent. This amount was a 12.4-percent increase over the nearly $5.7 billion that State governments provided the year before. Local governments' appropriations totaled $835 million, or 4.7 percent more than in the previous fiscal year. The Federal Government's appropriations were $567 million, or 9.6 percent more than the $517 million reported in 1969-70.

Revenues from student tuition and fees were the second greatest source of revenues for colleges and universities. These revenues rose 13.6 percent to $5.0 billion, or 21.0 percent of all current funds revenues in 1970-71. This 13.6-percent increase was a result of the 7.2-percent larger enrollments coupled with higher charges to the students.

Gross receipts from housing and food services and from other auxiliary enterprises comprised the third and fifth largest sources of current funds, respectively. Revenues from housing and food services were $1.9 billion, and revenues from other auxiliary enterprises such as student stores and intercollegiate athletics were $1.2 billion. Combined revenues from auxiliary enterprises represented 13.0 percent of total current funds revenues.

The fourth largest source of current funds revenues was for sponsored research.3/ These revenues comprised nearly 7.8 percent of all current funds revenues. They were close to $1.9 billion in 1970-71--a 1.0-percent increase over the preceding fiscal year. The Federal Government supplied nearly $1.5 billion of the sponsored research funds.

2/ Included all unrestricted funds received from governmental sources that were expendable for educational and general purposes.

3/ Revenues received from outside organizations for specific research projects undertaken in accordance with contracts or other written agreements.

Much smaller sources of current funds for educational and general purposes were private gifts and endowment income. Private gifts totaled nearly $679 million, 4/ or 2.8 percent of total current funds revenues. Private gifts increased 10.0 percent over the preceding fiscal year's total of almost $617 million. Endowment income was an even smaller source of funds in 1970-71--nearly $471 million or 2.0 percent of total revenues and an increase of 5.2 percent over the preceding year's figure of $447 million.

The five largest sources of current funds revenues for publicly controlled institutions were in the same order and in about the same proportions as for all institutions of higher education.

For private institutions, however, the pattern differed with respect to the proportion of total current funds revenues that each source provided. The five largest sources of current funds for private institutions were as follows:

Student tuition and fees were the largest single source of revenues for privately controlled institutions. These funds totaled $3.0 billion or 35.9 percent of the nearly $8.4 billion total revenues. The 11.4-percent increase in tuition and fees revenues over the preceding year indicated that private institutions raised their charges to the students appreciably, since enrollments during the same period increased only 2.2 percent.

Gross revenues from housing and food services, the second largest source of revenues to private institutions, totaled almost $847 million.

The next largest source of revenues to private colleges and universities was revenues for sponsored research. These revenues totaled $823 million, or 9.8 percent of total current funds revenues.

Private gifts were the fourth largest source of revenues to private institutions, totaling $611 million in 1970-71, or 7.3 percent of total revenues. Gifts were 9.4 percent more than the 1969-70 total of nearly $559 million.

Other service programs, which included Federally Funded Research and Development Centers 5/ operated by institutions of higher education, reached a total of $447 million, or 5.3 percent of total revenues. They represented the fifth largest source of current funds in private institutions.

4/ Included bequests and the estimated value of contributed services; excluded private funds received for sponsored research, other sponsored programs, and student aid grants.

5/ In 1971, privately controlled institutions administered 10 of the 21 university- and college-administered centers operating in 14 States.

Current Funds Expenditures

Current funds expenditures for all institutions of higher education increased 11.1 percent, from nearly $21.2 billion in 1969-70 to over $23.5 billion in 1970-71. Expenditures by publicly controlled institutions were $15.1 billion, or 64.3 percent of all institutions' expenditures. This was nearly $1.8 billion more than the preceding fiscal year and represented an increase of 13.2 percent.

Privately controlled institutions expended slightly over $8.4 billion, or $26 million more than they reported in revenues. In 1969-70, expenditures at private institutions exceeded revenues by $4 million. Expenditures for these schools increased 7.6 percent in 1970-71, or nearly $591 million over the preceding year's total of $7.8 billion.

Current funds expenditures exceeded current funds revenues at private universities by more than $37 million in 1970-71. Other 4-year and 2-year private institutions and all levels of public institutions reported more revenues than expenditures.

Functions of Expenditures

For all institutions, the biggest function of current expenditures was for instruction and departmental research.6/ These expenditures were nearly $7.9 billion, or 33.4 percent of total current funds expenditures. In 1969-70, expenditures for instruction and departmental research represented 32.7 percent of the total. Expenditures for this purpose had increased nearly $932 million or 13.5 percent in that 1-year period.

Expenditures of the executive and administrative offices and those for general institutional expense were called "other educational and general expenditures." These expenditures were $3.0 billion in 1970-71, or 12.8 percent of the total. This second largest function of expenditures increased 13.6 percent over the nearly $2.7 billion expended the preceding year.

Sponsored research expenditures were nearly $1.9 billion, and represented the third largest function of current funds expenditures. These 1970-71 expenditures for sponsored research were nearly $2.7 million less than revenues for the same period.

6/ Included in this figure were teachers' salaries and other expenses directly attributable to the cost of instruction. Sponsored research expenditures were not included in this figure.

Housing and food services expenditures were nearly $1.8 billion, and represented the fourth largest function. These expenditures were almost $147 million less than revenues.

The fifth greatest function of expenditures was physical plant maintenance and operation--$1.7 billion. These expenditures rose 12.3 percent over the 1969-70 figure of $1.5 billion.

The five largest items of expenditures for privately controlled institutions were in the same sequence as those listed above for all institutions, public and private.

For publicly controlled institutions, the five largest categories of expenditures were instruction and departmental research, other educational and general, physical plant maintenance and operation, sponsored research, and housing and food services, in that order.

The total current funds expenditures of more than $23.5 billion included an estimated $608 million that was actually expended for physical plant assets.

Expenditures per Student

Expenditures per student (EPS) were computed to indicate the approximate cost of educating one student for 1 year. These EPS averages were derived by dividing current funds expenditures data by enrollment data. 7/ This was done for 2 fiscal years--1970 and 1971--in actual and constant dollars, and the increase or decrease in EPS was noted. (See table C.)

The average EPS for all institutions in 1970-71 was $2,719. The comparable figure for 1969-70 was $2,623. Thus, the cost of educating one student in 1970-71 was $96 more than it was in 1969-70. However, if the expenditures are adjusted for inflation, and stated in constant 1970-71 dollars, the EPS decreases from $2,759 in 1969-70 to $2,719 in 1970-71, a decrease of $40.

7/ Total enrollment data were used; they included all degree-credit and non-degree-credit students. Data used were published in Fall Enrollment in Higher Education, 1970; Supplementary Information, Summary Data, (OE) 72-57, U.S. Department of Health, Education, and Welfare, Office of Education, Washington, D.C.: U.S. Government Printing Office, 1971, p. 13.

Data in this report are rounded to the nearest thousand. Therefore, a zero in the tables indicates that the amount reported is less than $500.

In addition, some institutions requested that certain data be kept confidential. To avoid disclosure of these restricted data through deduction, others also had to be suppressed in the tables. Blank cells indicate that data have been suppressed to maintain confidentiality. The suppressed amounts, however, are included in the totals shown.

METHODOLOGY

The survey form "Financial Statistics of Institutions of Higher Education," OE 2300-4, was part of the Higher Education General Information Survey package for 1971. The total population of inquiry was 2,565 institutions. A copy of the survey form is shown in appendix F.

Completed questionnaires were received from 2,441 institutions--for a response rate of 95 percent. The population of inquiry and the numbers of respondents and nonrespondents, by level of institution, control, and region and State, are shown in appendixes B,C, and D, respectively. The institutions that failed to respond or to provide adequate data are listed in appendix E.

One of two methods was used to adjust for nonresponse, depending on whether an institution's data were available for a preceding or succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1971.

If no other year's data were available for an institution, peer institution data for fiscal year 1971 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of instruction, and enrollment. Whenever possible, matches were also made with regard to institutional control.

HIGHER EDUCATION GENERAL INFORMATION SURVEY

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1971

INSTRUCTIONS AND DEFINITIONS

GENERAL

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

The definitions and instructions used here are compatible with those in College and University Business Administration, Revised Edition, published by the American Council on Education, 1785 Massachusetts Avenue, NW., Washington, D.C. 20036.

Please attach supplemental information, comments, etc., on a separate sheet.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at (202) 962-7301, in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included (*e.g., State schools should report physical plant even though records are maintained by a State agency*).

Estimated value of "contributed services" (members of a religious order only) should be included under revenues (private gifts) and expenditures in appropriate categories.

In reporting Federal funds received, include those Federal funds channeled through State agencies.

Exclude agency funds; i.e., funds handled by the institution in a custodial capacity only (e.g., funds for student organizations).

All data reported should be whole dollars only—omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, ATTENTION: Room 2136-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, not later than October 31, 1971. This form should be completed and returned within 3 months after the close of the fiscal year for your institution (e.g., if your fiscal year closes on May 31, the form should be returned by August 31; if on June 30, by September 30, etc.).

NOTE: This year's form is in seven parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.

SPECIFIC

Include here those tuition and fees which your State collects and returns in the form of State appropriations. Tuition and fee remissions or exemptions should be assessed and reported as student fees revenues although it is not intended to effect collection from the students. A corresponding amount, as well as the amount of other student aid granted out of current funds revenues, should be shown as expenditures of student aid grants (*Part B, Line 11*).

PART F - BASIC STUDENT CHARGES FOR ACADEMIC YEAR 1971-72

1. It is recognized that tuition and required fees and room and board charges are not the same for all students at an institution. Therefore, in selecting the single figure that will be most appropriately representative of your institution and comparable to other institutions, please be guided by the following:

a. Include all fixed sum charges which are REQUIRED of such a large proportion of all students that the student who does not pay the charge is an exception. If the amount varies depending upon the class level of the student, subject matter major, the courses taken, etc., estimate the typical or modal amount for charges which are required.

b. Do not include any charges which are clearly optional.

2. Report charges for the academic year. The academic year is the period of the regular session, generally extending from September to June, usually divided into 2 semesters, 3 quarters, or 2 trimesters. Most baccalaureate degrees are received after 4 or 5 academic years of attendance. For baccalaureate degrees requiring 4 academic years of attendance this usually comprises 8 semesters *(2 per year)* or 12 quarters *(3 per year)* or 8 trimesters *(2 per year)*, even though it may be possible to receive the degree in a shorter calendar time, such as completing 12 quarters in 3 calendar years or 8 trimesters in 2-2/3 calendar years.

3. If the institution has a single lump-sum charge for tuition, required fees, room, and board, please apportion the lump-sum charges among the appropriate categories.

4. Omit cents in reporting dollar amounts.

TUITION AND REQUIRED FEES

ITEM A. Undergraduate students are those who have not obtained a bachelor's degree: (1) all students in bachelor's degree programs which require at least 4 years but fewer than 6 years of college work; and (2) all students in occupational or general study programs which require 1, 2, or 3 years of college work and which are designated to prepare for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor's degree program.

ITEM B. Graduate students are those who have attained at least one standard bachelor's degree or first-professional degree and are or could be candidates for master's or doctor's degrees. They do NOT include candidates for the degrees of DSC, Pod.D, DDS, DMD, MD, OD, DO, DVM, LLB, JD, BD, or other first-professional degrees.

The "in-district" *(Lines 2 and 6)* and "in-State but not in-district" *(Lines 3 and 7)* distinctions apply only where an institution, usually a community college, has different rates for those types of students.

LINES 2 and 6. "In-district" students are those living in and attending an institution operated by the same district or political subdivision within a State as the institution.

LINES 3 and 7. "In-State but not in-district" students are those living in the State but not living in the district in which they are enrolled. If there is an additional fee for in-State students from outside the district of the institution, and the fee is charged to the student and not to the home district of the student, the sum of this additional fee and the regular fee for in-district students should be entered in Lines 3 and 7. The foregoing is applicable to undergraduate and graduate students.

Public institutions which have only two rates, one for residents of the State, and one for nonresidents, should report their fee rates on Lines 3 and 4 for undergraduates and on Lines 7 and 8 for graduate students, entering "N.A." *(not applicable)* on Lines 2 and 6.

ROOM AND BOARD CHARGES.

ITEM C. Report as room charge *(academic year)* the modal charge to a typical student sharing a room with one other student.

ITEM D. Report as the board charge *(academic year)* the modal charge to a typical student. Please check the number of days per week for which the board charges are applicable *(5, 6, or 7)*.

If your institution makes a combined charge for room and board, please make an estimate of the proportions of the total charge in each of the categories.

PART G - TO BE COMPLETED BY PUBLIC INSTITUTIONS ONLY

LINE 1. Report all gifts and grants received during the fiscal year from private individuals and organizations. Include nonexpendable grants as well as benefactions available for plant expansion, or for current expenditure.

LINE 2. Report interest, dividends, rents, and other earnings on all invested funds, including endowment and plant funds. Exclude receipts from sale of securities other than any recorded profits. Exclude earnings of State land funds allocated to your institution.

LINE 3. Report total expenditures during the fiscal year for gross salaries and wages of the total academic and nonacademic staff, including paid student help and part-time employees. Include amounts for auxiliary enterprises.

LINE 5. Report interest paid from all funds--general, auxiliary enterprise, plant funds, etc.

LINES 6 through 9. Include any loans (not "Commitments") from H.H.F.A. and other Federal agencies. Exclude obligations backed by a pledge of credit of the State.

LINES 10 and 11. Report bond anticipation notes, interest-bearing warrants and other obligations with a term of one year or less. Exclude accounts payable and other noninterest-bearing obligations. Do not include interfund loans, or advances from State funds.

Lines 12 through 16. Report amounts of cash on hand and on deposit, and security holdings (at par value) as to all funds and accounts of your institution except agency accounts held in private trust or custodial capacity, and any contributory employee-retirement system funds. Include endowment funds, loan funds, and plant funds, as well as current funds. Exclude accounts receivable, value of property other than securities, and any amounts held for your institution by the State Treasurer. Sinking funds (Column (2)) are reserves held specifically for redemption of the long-term debt reported in Line 9 (but exclude any amounts for interest requirements). Bond funds (Column (3)) are funds established to account for the proceeds of bond issues pending their disbursement.

LINE 12. Report cash on hand and demand and time or savings deposits.

LINE 14. Include holdings of bonds and other securities issued by State and local government institutions and agencies. Exclude interfund loans and advances.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration *(which central administration may or may not be located on one of the administratively equal campuses)* or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus *(sometimes called the parent institution)* is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis *(i.e., has a relatively permanent administration)*, which offers an organized program or programs of work of at least 2 years *(as opposed to courses)*, and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.
